

Brilliant Aiming Solutions™

AccuPin™

The Ultimate Low-Light Bow Sight System

Trijicon AccuPin™ Bow Sight

Tritium-Phosphor Lamp & Fiber Optics
Provide illumination for any light condition without batteries.

Triangular Aiming Point and Clear Pin
Precision aiming point with unobstructed view of target.

Anodized Aircraft-Grade 6061-T6 Aluminum
Made in the USA and so tough it's guaranteed for life.

AccuDial™
Large, laser etched dial precisely locks in yardage without the tape.

BowSync™ Technology
Infinitely variable transmission enables exact range adjustment and synchronization for any bow/arrow combination.

High Impact Shade Shield
High visibility aiming circle for optimal aiming point acquisition and protection.

Field Replaceable Pin
Finger tighten design makes replacement quick and easy.

Fully Housed Sight Level
Helps line up perfect shots.

INTRODUCING A BRILLIANT NEW AIMING SOLUTION

Created by the world leaders in illuminated riflescopes, Trijicon now brings their brilliant aiming solutions to the archer. The Trijicon AccuPin™—a breakthrough in bow sight technology, design and engineering.

ADVANCED

The heart of Trijicon AccuPin's innovative design lies in its triangular aiming tip and clear aiming pin. With a precision aiming point and zero obstructions, this one-of-a-kind configuration has an aiming point that actually points to your target instead of obscuring it. It's an entirely new perspective and gives archers the most precise bow sight available.

CONFIDENT

For the ultimate in visibility and aiming precision—even in the toughest conditions—the AccuPin incorporates the acclaimed Trijicon dual-illumination/battery-free system. With a combination of fiber optics and tritium pioneered and perfected in their world-class riflescopes, the Trijicon AccuPin is the brightest pin sight on the market. Whether it's in the dark shade of the deep woods or the glaring sunrise of a damp meadow, the high contrast aiming point lets you acquire targets with complete confidence — without batteries and without doubt.

The Trijicon AccuPin™ and its combination of fiber optics and tritium illumination are Pope & Young Legal.

REFINED

Having designed advanced aiming systems for more than two decades, Trijicon knows that a precision sight demands a precision mount. That's why Trijicon developed the Trijicon AccuDial™ equipped with BowSync™ technology. With an infinitely variable transmission, it enables exact range adjustment and synchronization for any bow/arrow combination. Its laser etched dial makes on-the-fly adjustments quickly and accurately—without having to rely on a clumsy strip of tape. Together, the AccuPin and AccuDial form a refined system that stands as a benchmark for sight and mount integration.

TOUGH

With thousands of optics trusted by military and law enforcement groups around the world, Trijicon knows something about engineering for the most demanding conditions. Built using only the finest materials, finishes and components, the AccuPin continues the Trijicon tradition of rugged reliability. In an independent study that simulated ten years of daily field use, it was still in perfect working order and as accurate as day one. If that doesn't prove how tough it is, just consider this: The Trijicon AccuPin is backed by a limited lifetime warranty.

TECHNICAL SPECIFICATIONS FOR ACCUPIN SIGHT WITH ACCUDIAL MOUNT

Operating Principle	Self-Luminous
Reticle Illumination	Fluorescent Fiber Optics
Lamp Type	Blue-Violet Tritium
Field of View	1.77 in. (45mm)
Length	6.0 in. (152mm)
Width	3.7 in. (94mm)
Height	2.8 in. (71mm)
Weight	10.41 oz. (295g)
Material	6061-T6 Aluminum

Features

Uncluttered Field of View

The precision aiming point and clear pin gives you an unobstructed view of your target.

Brightest Pin in the Industry

Tritium phosphor and fiber optic illumination provide an aiming point that's brighter than any other pin sight.

Adjustable AccuDial™ Mount

Lock in distances with the laser etched dial, adjustable through a range of 60 positions.

BowSync™ Technology

Infinitely variable transmission allows you to synchronize the AccuDial™ mount to any bow/arrow combination.
